Call in Number: 712-775-7100

Passcode: 937827#

RSVP: Please contact Ms. Sudha Gollapudi with Think Energy, Inc. at 301-270-0330 or [sgollapudi \[at\] thinkenergy \[dot\] net](mailto:sgollapudi@thinkenergy.net)

Do you have a clean energy technology product or know of a company that does? Do you need funding to bring your product to market? Are you located in New York State or willing to open a New York State office? If so, your company can receive up to \$200,000 to support its innovative products and expand its operations.

The New York State Energy Research and Development Authority (NYSERDA) is offering funding to companies with products that are commercially available or near commercial development. This opportunity, Program Opportunity Notice (PON) 1124 has five million dollars available. There are two remaining rounds of funding for PON 1124 and the next deadline is February 4, 2008.

To aid interested bidders, NYSERDA is hosting a pre-bid conference call on Thursday, January 3, 2008 at 4:00 p.m. E.S.T. The presentation and conference call will provide full details of PON 1124 and will give insight into the application process. Potential bidders are encouraged to attend as there will be an opportunity to ask questions.

For full details on PON 1124 including eligibility and application requirements, visit <http://www.nyserda.org/funding/> and select 'Current Opportunities.'

Please RSVP by contacting Ms. Sudha Gollapudi with Think Energy, Inc. at 301-270-0330 or [sgollapudi \[at\] thinkenergy \[dot\] net](mailto:sgollapudi@thinkenergy.net). Pre-bid conference agenda and presentation materials will be emailed to you once registration is complete.

Don't Miss this Profitable Opportunity
